## SEPTEMBER 11 DISPLAY

Twenty years after the 9/11 attacks brings a bit of history to the Library. In a display titled "September 11, 2001: The Day That Changed the World", a poster display with personal stories will narrate the experiences of those who witnessed and survived the attacks of that dark day. The posters are being lent by the 9/11 Memorial & Museum and educators can find resources for teaching at:  
[911memorial.org/learn/resources/911-primer](http://911memorial.org/learn/resources/911-primer).

## FROM THE STACKS

### **Gregory Peck: A Biography**

Gary Fishgall

791.43 FIS

Author Gary Fishgall does a superb job of laying out the life of this great actor, from birth to childhood, college to Broadway to the silver screen, and finally to years of activism and T.V. roles. And it was all told with candor and honesty, well-researched and fairly portraying the great Gregory Peck.

I do quite enjoy Mr. Peck- tall, dark, handsome- and that baritone voice!- and if you feel the same, this biography is well worth the read! A great background for all those movies you'll want to binge watch.

## MPL PRESENTS...

### *Becky Mitter!*

Becky is a Pocatello native and loves this area and all it has to offer. She and her husband are the parents of 5 children and have 15 grandchildren. Becky enjoys spending time with family, traveling, reading, music, volleyball, cycling, hiking, and enjoying the beautiful outdoors. A favorite pastime is to do family history research and read the stories of her ancestors. She has worked at the library for 11 years and has created Speedy Reader Kits and Exploration Kits to add to our collections. Becky loves working at the library and helping people find great books to read.
