FROM THE STACKS:

So Many Beginnings by Bethany C. Morrow

Set in 1863 in the Freedpeople's Colony on Roanoke Island, we follow the lives of the sisters, Meg, Jo, Beth, and Amy, as they experience ups and downs of young womanhood. Does this plot sound familiar? It should! It's a remix of the classic story, Little Women by Louisa May Alcott. It provides an opportunity to see Civil War-era life through the eyes of these Black young women. I love that the author is able to use the framework from the original novel to create this beautiful story that examines the similarities and differences between the two sets of March sisters. For example, Meg is a young teacher who longs to find true love and start a family, but it is difficult to find a suitable mate. In the newly established Colony, the men are needed to either serve in the military or to work long hours building the many homes needed for the constantly arriving settlers. If you are a fan of the classics or just enjoy a good historical fiction story, then I highly recommend this book.
