FROM THE STACKS: "The Selection" by Kiera Cass

The Selection follows the life of a small-town girl, America Singer. With encouragement from her family, she enters a competition to win the heart and hand of Prince Maxon. This competition is called The Selection. 35 girls enter and only one will come out with the heart of the Prince. Will America put her effort into winning or would she rather return home? Although she spends most of the competition doubting herself and those around her, she slowly learns how to trust. She also has the chance to learn that sometimes what the mind wants and what the heart wants are two very different things. She will have to decide whether to follow her heart or her mind.

The Selection is written for a young adult population, but Kiera Cass has the ability to captivate any audience with the mixture of love, fantasy, and some violence, all in a dystopia time period.
